## Title

Stacks

## Background

Stack is common data structures in real world such as: a stacks of glasses. Stacks act like “LIFO”, mean LAST IN-FIRST OUT.

## Program Specifications

Write a application to demo how stack works

Create the MyStack class with following info:

- Properties
  - stackValues, contain value of the stack
- Methods
  - push(): Push a value to the stack
  - pop(): Pop a value out from the stack
  - get(): Get a value from the stack

## Guidelines

NA
